

# Polar Short-Term Exploratory Program (STEP) Club

Funded on NSF Grant#1906897 and supported by the NJ Agricultural Experimental Station (NJAES), Rutgers University Cooperative Extension

4-H Youth Development Program Essex County and in collaboration with:

## Are you ready for an Icy Adventure?

Join our polar expedition team to investigate the "refrigerators of the world" - and why it matters to better understand these ice-covered regions. Scientists Ellyn Enderlin, Michalea King and Stacy Porter will take you behind-the-scenes of their research and share how they study ice. Sessions will include videos, hands-on activities and creative projects you can do at home.

Join the Fun & Register Today!

## Explorers will need:

A computer, iPad or smart phone and a wifi connection to virtually join the research team in online activities & discussions. Youth will receive a science kit in the email prior to start of the program.

We will use ZOOM to connect Jan 20, 27 and Feb 3, 10, 17 4:30 - 6 pm
